EXPERIENCE

Full Stack Developer

株式会社ALPHA TRADING

December 2024 - Present, Sakura, Chiba, Japan

- **Developed internal tools** for inventory management and sales system, streamlining operations and improving efficiency.
- **Built a comprehensive admin dashboard** using ReactJS to display key statistics and insights for better decision-making.
- **Implemented a QR code scanning system** for the attendance system, enhancing employee tracking and ensuring smooth operations.
- **Designed backend infrastructure** using Node.js and AWS, optimizing performance and scalability for internal tools and systems.
- **Integrated S3 for object storage**, enabling secure and efficient handling of data and media files.
- **Developed an NFC-based attendance system**, providing seamless and accurate attendance tracking.

Full Stack Developer

EOS Systems Sdn Bhd

September 2023 - December 2024, Kuala Lumpur, Malaysia

- **Developed a POS solution** for F&B businesses, including an Android app, QR order system, and merchant dashboard.
- **Built the POSBoleh Android app** for Sunmi terminals using Flutter and Dart, available on the Sunmi Store.
- **Developed a QR table order system** using ReactJS and Node.js, allowing customers to place and track orders.
- **Created a merchant dashboard** with ReactJS, Ant Design Pro, and UmiJS, featuring role-based access control.
- **Designed backend infrastructure** with AdonisJS on AWS, using MySQL for data storage and S3 for file storage.
- **Integrated WhatsApp Business API** for automated sign-ups, OTP authentication, points tracking, and reward redemption.

Full Stack Developer (Internship)

Dex Labs Sdn Bhd

October 2022 - September 2023, Kuala Lumpur, Malaysia

- **Developed a Role-Based Access Control Dashboard** using MERN stack, replacing WordPress and improving efficiency.
- **Optimized report generation** with a microservice on AWS, reducing database strain and improving speed.
- **Migrated from WordPress to MERN stack**, enhancing performance and modernizing the UI.
- **Built a Payment Terminal Tracking Dashboard** to improve operational efficiency.
- **Enhanced Android Payment Apps**, fixing bugs and adding features to boost reliability and user satisfaction.

Mobile Application Developer (Internship)

MSP Systems (M) Sdn Bhd

August 2021 - October 2021, Kuala Lumpur, Malaysia

- **Designed a modern UI** for a CRM app, improving user satisfaction and retention.
- **Revamped system design** to enhance usability and visual appeal, boosting user retention.
- **Refactored codebase** using Flutter's BLoC architecture, improving performance and reducing crash rates.
- **Implemented new design and architecture**, enhancing responsiveness and reducing user-reported issues.
- **Integrated performance monitoring**, ensuring 99.9% uptime and a reliable user experience.
